

# **Invitation to SEF Medical Missionary training with grand health expo and evangelistic effort in Hawassa Ethiopia**

**Sun, 12 March 2017 – Sun, 19 March 2017**

## **Why performing an SEF Medical missionary training and Health related evangelistic effort?**

The idea of Medical missionary training and evangelistic effort is to apply our health knowledge and to get active in the mission field. That means that SEF health department wants to support health professionals live in anywhere in their medical missionary efforts in addition to their medical profession and to provide professional help to an already existing mission project.

Haven't you ever dreamt about being more practical in our Adventist Mission efforts? We have! Instead of just talking and discussing about things we could do – this year we want to go further. For the first time we have the great opportunity to carry out what we have learned at the SEF office and get more practical. In particular – this year we will support HIV patients, addicted youth, communicable diseases and street children with medical help and by conducting a Health Expo.

## **Why have we chosen Hawassa?**

The SEF head office has already planned to perform a Health Exp. In addition Churches in Hawassa city has been very active in the medical and other evangelism program for the past years. And the people here is open to the gospel.

Now it's all up to YOU! We as the SEF as office and the church of Hawassa need you to get involved in this project. **You don't need any medical education to participate at this event, every one is welcome!**

## **Here is a short program preview:**

- Five days of Health Expo
- Five days of health care services that include
- Presentations on prevention, psychological counselling, dental prophylaxis and free dental treatment, HIV taste and counseling, diabetes and hypertension diagnoses
- Health program for children
- Sport activities
- Family programs
- Blood donation and community services
- The 8 fundamental healthy living principles training

- Evening presentations

These are just a few activities in which you can participate. You can also make your own suggestion of how you want to contribute to the program. Please contact Mamo Petros to share a suggestion for your contribution. Be active and join the SEF Medical Missions-Week! You can register independently if you can't make it to the SEF Medical Missionary training conference.
